

CEVA starts rail service between Guangdong province in China

Shanghai, People's Republic of China, 26 June, 2017

CEVA Logistics, one of the world's leading supply chain management companies, has launched a new rail service linking Shilong in southern China's Guangdong province to Hamburg in Germany. In conjunction with the Chinese state railway company, the new regular block trains will route Shilong, Manzhouli (China), Zabakalsky (Russia), Brest (Belarus), Malaszewicze (Poland) and Hamburg with a station-to-station lead time of 17-19 days. CEVA's new year-round service solution will save customers up to 2 days in time compared with other routings and will also deliver cost savings as a result.

CEVA first initiated its China-to-Europe rail services from Suzhou in 2010 and has built a network encompassing key Chinese cities through its "northern route" operation including Suzhou, Changsha, Shenyang, Hefei, Chongqing, Chengdu, Zhengzhou and Wuhan to European destinations including Moscow, Warsaw, Lodz, Duisburg, Hamburg, Nuremburg and Tilburg. From there it uses its extensive trucking network for onward delivery to major European cities. In addition to the new "southern route" and its existing "northern route" CEVA also operates a "middle route" via Mongolia to Europe to shorten lead times during the winter months and peak season.

CEVA operates both FCL and LCL services ex-China which are managed through its control tower in Shenzhen with dedicated rail and road connection teams delivering high-standard customer service through a single contact point. They also provide users of this door-to-door service with 24/7 real time tracking through CEVA's web portal to provide them with total visibility on the journey.

"This new link further extends our comprehensive rail services between China and Europe and enables us to provide customers with a reliable, highly secure door-to-door service with real-time track and trace along the route," states Kelvin Tang, CEVA's Head of Cross Border, Greater China.

SAFE HARBOR STATEMENT:

This news release may contain forward-looking statements. These statements include, but are not limited to, discussions regarding industry outlook, the Company's expectations regarding the performance of its business, its liquidity and capital resources, its guidance for 2017 and beyond, and the other non-historical statements. These statements can be identified by the use of words such as "believes" "anticipates," "expects," "intends," "plans," "continues," "estimates," "predicts," "projects," "forecasts," and similar expressions. All forward-looking statements are based on management's current expectations and beliefs only as of the date of this press release and, in addition to the assumptions specifically mentioned in the above paragraphs, there are a number of factors that could cause actual results and developments to differ materially from those expressed or implied by these forward-looking statements, including the effect of local and national economic, credit and capital market conditions, a downturn in the industries in which we operate (including the automotive industry and the airfreight business), risks associated with the Company's global operations, fluctuations and increases in fuel prices, the Company's substantial indebtedness, restrictions contained in its debt agreements and risks that it will be unable to compete effectively. Further information concerning the Company and its business, including factors that potentially could materially affect the Company's financial results, is contained in the Company's annual and quarterly reports, available on the Company's website, which investors are strongly encouraged to review. Should one or more of these risks or uncertainties materialize or the consequences of such a development worsen, or should underlying assumptions prove incorrect, actual outcomes may vary materially from those forecasted or expected. CEVA disclaims any intention or obligation to update publicly or revise such statements, whether as a result of new information, future events or otherwise.
